

Colour codes for size 11/0 Japanese TOHO seed beads used in Beading on card patterns by www.craftyferret.co.uk

TOHO CO. LTD manufacture the best quality glass beads in Japan renowned for their consistency in colour and size. TOHO means "Eastern Treasure".

The best UK suppliers that I have found for TOHO beads are:-

www.e-beads.co.uk www.beadsdirect.co.uk
www.tiddlybeads.co.uk www.thebeadcellar.co.uk

Availability and details of the following beads could change at any time.

* Either of these finishes could be used for any of the patterns although the Silver lined versions are better for Christmas patterns.

You may need to find alternatives for Dark pink and Dark red, I will be searching for them myself when my supplies of these colours have run out.

Colour description on Crafty Ferret downloads. This description will be different on the suppliers websites.	Description of the finish of the bead, this may vary with different suppliers.	Toho colour code used by most suppliers. Please contact suppliers for more details.
